

Best Doctors LIVE Webinar Series

The Golden Years: A Focus on Geriatrics

Thursday, May 25, 2017 | 2 PM – 3 PM E

Growing old is inevitable, but getting sick is not. It is no secret that the older we get, the higher our likelihood is to develop an illness. Geriatricians are here to help aging adults remain healthy. They are specifically trained to meet the needs of these adults and assist in the prevention and management of any medical condition.

This webinar will be presented by Dr. Miguel Paniagua and Best Doctors own Dr. Marc Bonaca. Dr. Paniagua is an adjunct associate professor of geriatrics at the Perelman School of Medicine at the University of Pennsylvania. As the associate Best Doctors U.S. Medical Director, Dr. Bonaca ensures the highest quality in our clinical services, organizational infrastructure and service line processes.

There will be time for live Q&A after the presentation.

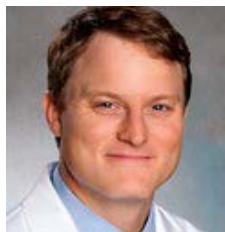

We hope that you will be able to join us for this free educational webinar!
